BARBER SHEARS & SCISSORS

BARBER · SALON · OEM

WELCOME TO

The House of Derpa

Derpa Shears brings the scissor-making heritage of Sialkot to barbers, salons and distributors around the world — professional barber shears, thinning shears and everyday scissors.

Every shear in this catalogue is forged, hardened, ground and hand-finished by skilled craftsmen, then inspected before it leaves our workshop. From everyday satin-steel workhorses to sculpted signature pieces, our range is built around one idea: a tool a professional can trust with every cut.

This edition presents **240 designs** across **ten collections**: barber cutting shears, barber thinning shears, matched shear sets, multipurpose scissors and embroidery scissors. Every model can be supplied under the Derpa name or produced for your own brand.

Crafted for the hands that shape style

01

Forged Steel

J2 and 440C stainless steel, heat-treated for hardness and edge retention.

02

Hand-Honed Edges

Each blade is ground and honed by hand for a smooth, clean, even cut.

03

Ergonomic Design

Offset, crane and opposing grips with finger rests reduce hand and wrist strain.

04

Titanium Finishes

Rainbow, black, sapphire, gold and rose-gold coatings for a distinctive look.

05

Inspected Piece by Piece

Blade alignment, tension and cutting action checked before packing.

06

Made for Export

OEM, private label, custom logos and packaging for distributors worldwide.

Anatomy of a Shear

STEEL, FINISH & STYLE GUIDE

J2 Stainless

Japanese-grade stainless steel. Hard-wearing, easy to sharpen, ideal for daily cutting.

440C Stainless

High-carbon stainless steel with excellent hardness and long edge retention.

Titanium Coating

Rainbow, black, blue, gold and rose finishes bonded to the steel for colour and durability.

Barber Cutting Shear

Smooth straight blades for precision cutting, point cutting and slide cutting.

Barber Thinning Shear

One toothed blade removes bulk and blends lines for a soft, textured finish.

Offset Handle

Shorter thumb shank keeps the hand relaxed and the elbow low while cutting.

01

BARBER SHEAR COLLECTION

The Classic Professional

Everyday precision for the working barber.

Mirror and satin-finished stainless barber shears with ergonomic offset handles and colour-coded finger rings. Built from J2 and 440C stainless steel, these are the dependable workhorses of the Derpa range — balanced, sharp and made to be used all day.

- ◆ J2 & 440C stainless options
- ◆ 4.5" – 10" blade lengths
- ◆ Offset & opposing grips
- ◆ Adjustable tension screw

BARBER SHEAR COLLECTION

Black Titanium

Stealth finish. Serious edge.

Barber shears in matte and gloss black titanium coatings, many paired with champagne-gold handles and pivot hardware. A bold, modern statement for the barber who wants tools that look as sharp as they cut.

- ◆ Titanium-coated finish
- ◆ Black & gold detailing
- ◆ Crane & offset handles
- ◆ Scratch-resistant coating

BARBER SHEAR COLLECTION

Rainbow Titanium

Iridescent colour, precision steel.

Barber shears with a titanium coating bonded to the blade, creating a shifting spectrum of violet, teal and gold. Every piece is unique in the light — a signature look for salons that want their tools to stand out.

- ◆ Multi-tone titanium finish
- ◆ Glitter ring inserts
- ◆ Offset ergonomic handles
- ◆ Detachable finger rests

FOR BRANDS & DISTRIBUTORS

OEM & Private Label

Every design in this catalogue can be produced under your own brand. From a single salon logo to a full distributor range, we manufacture to your specification.

01

Your Logo

Laser-etched or engraved branding on blade or shank.

02

Your Finish

Choose any steel, coating and ring colour from this catalogue.

03

Your Packaging

Custom boxes, pouches and inserts printed with your brand.

04

Your Quantities

Flexible order volumes for salons, distributors and retailers.

HOW IT WORKS

1

Choose models

2

Share your logo & specs

3

Approve sample

4

Production & QC

5

Pack & ship worldwide

Packaging Options

Zip Pouch

Soft padded pouch — ideal for single shears and retail.

Leather Case

Premium case holding a cutting and thinning pair with accessories.

Gift Box

Rigid presentation box with foam insert for signature pieces.

Kit Roll

Multi-slot roll for barber kits, schools and academies.

Quality Control

01

Steel & hardness check

02

Blade alignment

03

Edge & cutting test

04

Tension & smooth action

05

Finish & coating inspection

06

Final polish & packing

Accessories such as finger inserts, tension keys, cleaning cloths and oil can be included on request.
